Dear Solace Nutrition:

We would like to express our thanks and appreciation to you for your participation in the Nemours Children's Celiac Center Kickoff Event at A.I. duPont Hospital for Children on September 16, 2006. It was a great success with over 150 patients, families, and attendees supporting celiac disease present.

Studies have shown that many individuals following a gluten-free diet are deficient in important nutrients such as calcium, vitamin D, and B-vitamins. Daily multivitamin use is often recommended. Thanks to you, there is now a complete multivitamin available that is gluten-free and easy to mix into foods without an after-taste.

Your dedication to promoting a better quality of life for children such as those with celiac disease is to be commended. Thank you again for making our event so special.

Sincerely,

Karoly Horvath, MD, PhD
