

Directions for Use

Daily intake to be determined by your healthcare professional specialized in mitochondrial diseases. May be consumed orally or via tube feeding.

1. Shake bottle well before usage.
2. Using the dosing spoon provided, measure the amount of Cyto-Q MAX[®] liquid required to meet your serving requirements.
3. Add the measured liquid to water, formula, or dosing syringe directly as a bolus. All or part of the serving may also be taken by mouth.

Warning

Not for the general population of consumers. Not for parenteral use. Not for use as a sole source of nutrition. Only for individuals with Mitochondrial Cytopathies or inborn errors of metabolism. Cyto-Q MAX[®] is oxidized when exposed to air and should be consumed directly after dispensing. **Use under medical supervision.**

Storage

All bottles (opened or unopened) should be kept in a cool, dry place (not in refrigerator). Reseal opened bottles and use within 3 months.

Cyto-Q^{MAX}[®]

Unflavored concentrated Ubiquinol

Medical Food

A Medical Food for use in the dietary management of Inborn Errors of Metabolism such as Mitochondrial Cytopathies.

A concentrated, liposomal ubiquinol solution for enhanced absorption.

Allergen tested at No Detectable Limit (NDL) for eggs, dairy, fish, crustacean, soy, corn, gluten, sesame, tree nuts, and peanut.

Shake Bottle Well Before Usage

Net: 5.75 fl. oz. (170 mL)
