

Directions of Use

Use under medical supervision. Daily intake to be determined by your healthcare professional specialized in mitochondrial disorders.

Each tablespoon (15 mL) of Cytotine contains 1.5 g of creatine. Suggest to take Cytotine in the morning.

1. Measure your daily recommended amount of creatine
2. If tube feeding, add Cytotine directly to formula or deliver directly using a syringe
3. If oral feeding, consume directly from spoon or add to your favorite beverage

Warning

Not for parenteral use. Not for use as a sole source of nutrition. Only for individuals with a Mitochondrial Cytopathy. **Use under medical supervision.**

Storage

Keep tightly closed in a cool, dry place away from children. Once bottle has been opened, use within 1 month.

Cytotine®

*Orange-pineapple Flavored Liquid
Creatine Monohydrate*

Medical Food

A Medical Food for the dietary management of Inborn errors such as mitochondrial cytopathies.

Not for the general population of consumers.
