

PreKUlab Ltd.
 Revvej 41
 DK-4220 Korsør

Batch no: 26217
 Exp. date 05-2019

Directions for Use: Use under medical supervision.

- 1 level scoop = 5.8 g powder = 4.2 g amino acids
 Using the scoop provided or a gram scale, measure the amount of powder needed for 1 meal.
- Consume powder during meal by mixing into a cold beverage, water or moist foods. Dilute powder as per taste preference.
- The allotted meal amount of powder may be taken all at once or divided throughout the meal.

Suggested Intake: 0.5 g amino acids per kg of body weight per day (0.5 g amino acids/kg/d). Daily intake to be determined by your healthcare professional specialized in metabolic disorders.

Warning: For individuals with PKU only. Not clinically proven in children less than 8 years of age. Do not use NeoPhe powder if you are pregnant or planning a pregnancy. If you become pregnant, stop taking NeoPhe immediately and consult your doctor.

Storage: Store in a cool dry place away from direct sunlight. When not in use, reseal and keep container closed.
