

**Directions of Use:** Cholextra t/f is best soluble in formula and can be consumed either orally or via tube feeding. The daily intake of Cholextra t/f powder is to be determined by your physician or dietitian.

#### Oral or Tube Feeding

1. Measure (using the scoop provided or a gram scale) the recommended amount of Cholextra t/f powder.
2. For oral, consume powder by either sprinkling on food or into liquids, or taking directly by mouth followed with water.
3. For tube feeding, add powder in small increments to the formula (room temperature or cold) and stir well. Cholextra t/f powder and formula mixture should be used within 4 hours

**Warning:** Not for parental use. Not for use as a sole source of nutrition. Only for individuals with cholesterol synthesis disorders. **Use under medical supervision.**

**Storage:** Unopened bottles should be kept in a cool, dry place. Reseal unopened bottles and use within three months.

# Cholextra<sup>®</sup> t/f
